

Development Endowment Fund

In the early years of the AFLC, Ernie Miedema served in development as he traveled across the United States meeting with pastors and members, sharing the needs of the AFLC. Through these relationships, God used him to encourage people to leave their estates and gifts to the AFLC. We praise God for how He used Ernie to help the ministries over the years. Though Ernie has gone home to be with the Lord, his legacy of faithful service continues. Today, the Development Department works with over 640 ministry partners throughout the United States. We also work closely with our AFLC ministry leaders in meeting funding needs to grow His Kingdom. When we partner in ministry, we are investing in eternity.

The Development Endowment Fund was established to help support the operating costs of the department. Currently, the endowment only covers a portion of the expenses. Therefore, five corporations within the AFLC pay for a portion of the costs every month. Our goal is to raise enough funds within the endowment so the department needs are met, and the contributions from the corporations can end. Please pray with us that sufficient funds will be contributed so that the endowment will meet the ongoing needs of the Development Department. Please contact us if the Lord is leading you to be a part of this work.
