

New Tractor with Attachments

The ARC sits on 80 acres of land and welcomes thousands of guests each year. It's a place where lives are changed, and many come to know Jesus Christ as their personal Savior. Praise God for the work He is doing here!

New tractor

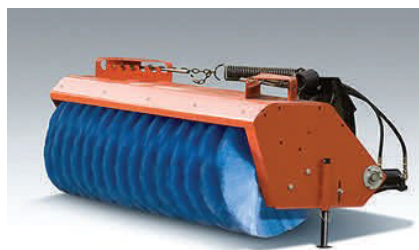

Snowblower

Maintaining The ARC grounds requires ongoing effort, from building repair to remodeling, road maintenance, and various site improvement projects. Currently, the facility relies on limited equipment, much of which isn't suited for the tasks at hand. To increase efficiency and effectiveness, The ARC is seeking to purchase a new tractor with about 75hp, along with key attachments to handle a wide range of work safely and skillfully.

Grading Blade

Broom

Tiller

The total estimated cost for the tractor and attachments is \$92,000. Please join us in praying that the Lord would provide the necessary resources to fund this equipment need.
