Computer & Monitor Replacement

Technology is ever changing in our world today. While we strive to provide the best service with the tools we have, there are times when updates are necessary. To continue producing biblically faithful, high-quality resources, we rely on dependable and up-to-date computers. Much of our work takes place digitally. When our tools are outdated, the work slows and becomes less efficient, affecting our ability to serve local congregations effectively.

To continue our work without disruption, we are seeking to replace one obsolete office computer. A reliable, updated system will allow us to stay focused on developing and delivering resources that equip congregations for faithful teaching.
