

Pickup Truck for Daily Operations

The Association Retreat Center is in need of a reliable $\frac{3}{4}$ ton, 4 wheel drive, long-bed pickup truck to support the daily operations across its 80 acre property. From hauling materials and supplies to supporting maintenance and groundskeeping, a dependable truck is a critical tool for the team.

The ARC is seeking a well-maintained used vehicle to meet these needs with an estimated cost between \$15,000 to \$20,000. We invite you to pray with us for the Lord's provision, and if you're able to contribute financially or donate a suitable vehicle, we would be deeply grateful.
