AFLC PRESIDENT'S ENDOWMENT FUND

As the AFLC continues to grow so do the General Fund needs. The salary and expenses of the President is one of the General Funds responsibilities. Along with growth also comes the responsibilities of the President to travel and visit AFLC churches and pastors as they request. The AFLC President is traveling about 50% of the time.

A way to remove some of the responsibility of the General Fund to pay for the salary and expenses of the President is to establish an Endowment Fund for the President.

The endowment fund would need to produce about \$150,000.00 each year to cover the costs for the President.

This Endowment Fund would be set at 3 million dollars. Annually, 5% would be taken out of the fund to cover the expenses and salary for the President. This would provide the \$150,000.00 needed on a yearly basis but keeping the principal intact for future years.

Please prayerfully consider what the Lord would lead you to do to give towards this Endowment Fund.
