

## **August 2021 Development Department Giving Opportunity for FLBCS\***

*The Free Lutheran Bible College and Seminary exists to establish students in the eternal and inerrant Word of God for a life of faith in Jesus Christ and faithful service in His Kingdom.*

### **Replacement Furniture for Heritage Hall Commons Area**

The furniture in the commons area near the classrooms where students gather during breaks and other social times has seen many years of use and is now ‘well worn’ and in need of replacing.

The college common area is a central element of student life. Currently we have two large and two small soft seating zones of sofas, chairs and tables. Nearby are groupings of high top tables and chairs. These areas provide an environment for students to have informal dialog and conversations, quiet study, or “let’s talk” engagement with others. A commons area encourages student interaction with each other.

Estimated cost is approximately \$16,000.
