Investing For Eternity

H.I.S. FUND

HELP IN SERVICE FUND

The Help In Service Fund is designed to help meet the needs of pastors and their families that other health or types of insurance will not cover. It may be used to help a pastor's widow with a special need that arises after her husband dies. Needs are usually channeled through the AFLC President and passed on to the Benefits Board who makes the final decision on meeting the special needs.

In the day in which we live, special needs are ever increasing for pastors and their families. With the high cost of health insurance and an ever increasing cost for living expenses, a heavy burden is put on many of our pastors who are living on the bare minimum.

This fund has been used in the past by many of our pastors and pastor's families in times of great need. There is no set amount that needs to be in the fund but there does need to be adequate funds to meet the urgent needs that arise from time to time.

We would like to see this fund grow to about \$20,000.00 and be retained at this amount, so that we would never have to turn down a pastor or pastor's family that is in need. Please pray and ask the Lord what He would have you do to meet this great opportunity to grow and sustain this fund for our pastors. Thank you for your participation and may God richly bless you.
