

AFCLC DEVELOPMENT DEPARTMENT

Investing For Eternity

Ambassador Publications

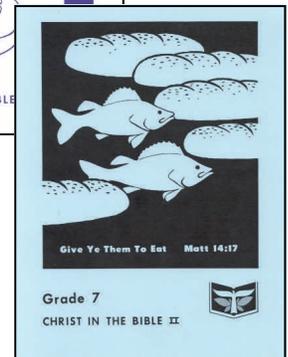

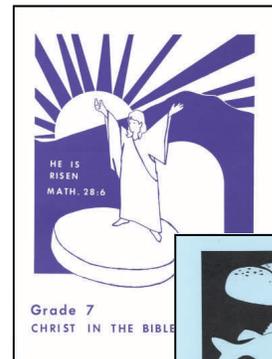

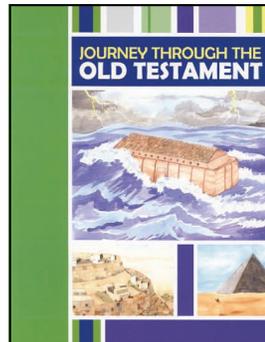

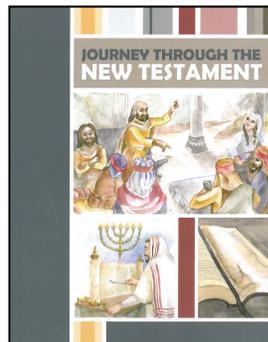

serves congregations and individuals by providing biblical Lutheran resources to encourage faithful teaching of the Word of God.

God has graciously provided funding for publishing projects. Our greatest need continues to be for staff to help complete these projects so we can better serve congregations.

We have a backlog of projects waiting to be completed. We want to provide congregations with Christ-centered, quality Sunday school

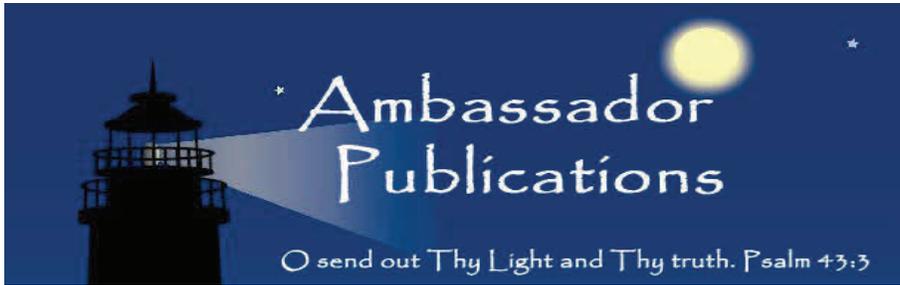

Projects currently waiting to be completed:

- Teacher manuals for Preschool, Grade 3, Grade 5, and Grade 6.
- Student books for Grades 7 and 8.
- New Bible studies for youth and adults.

Samples of new Grades 4, 5, and 6 student books completed.

Samples of outdated curriculum waiting to be revised.

In order to better serve our congregations, the Board of Publications desires to increase staffing hours for our department, which would allow for completion of much needed curriculum projects as well as increase training opportunities for teachers in our congregations, both of which will impact the growth of God's kingdom.

Would you pray about helping us fulfill this opportunity as quickly as possible? We confidently pray that God will provide in His time according to His will.

***Praise God for the work He is doing
in the lives of students and teachers!***

One teacher commented about the new Grade 5 student book:

“When I received the new fifth grade material, I became excited again about teaching. I not only was the teacher, but I became a learner as well. Each lesson captured my interest and created new insight that I was eager to share with my students.”

—Bonnie

What would it cost?

Adding staffing hours would cost approximately \$25,000 per year. We are looking to fund these additional hours for three years by your gracious and loving help, until we can build the position into the budget. The opportunity that we have before us is to raise the funds for those three years, giving us time to increase the budget to maintain this level of staffing. The total estimated cost for the three years is \$75,000.

Year 1— \$25,000 needed

Year 2— \$25,000 needed

Year 3— \$25,000 needed
