Investing For Eternity

## AFLC World Missions

*The purpose of AFLC World Missions is,  
by the grace of God, to make disciples  
of all nations through teaching and evangelism.*

### Unreached People Groups

One of the goals of AFLC World Missions is to reach unreached people groups.

The World Missions Committee did a study on unreached peoples around the world. They observed that 87.7 percent of the population in India are in 2,192 people groups with little or no Christian presence. India has such a high number

because of the caste system which separates people into groups that do not associate with each other. To bridge the caste system boundaries, people from India and around the world must be willing to live in the midst of these people and become one with them.

The people of India have taken the challenge to reach some of the unreached people. In January of 2009 a mission team was formed by the local pastors of the AFLC-India. The question was asked, "Are you willing to bring the Gospel to people different from yourself?" Five people came forward and met to pray over this need.

Within a few months a completely Hindu village was chosen as a place to reach. The mission team prayed and planned to reach this village. One of the AFLC pastors had an uncle who allowed his home to be used to start a church. First, the village was surveyed and the elders were consulted. Second, a doctor was sent to care for the villagers in the name of Jesus. The doctor told the people that a preaching rally would be held in two weeks. Third, four pastors went through the village inviting people to come hear about Jesus and see the film that described His life. Sixty people attended and many prayed in response to the Gospel.

## The Plan to Reach the Unreached

AFLC World Missions has a plan to start more congregations in India. We will provide \$60.00 a month the first year for a congregation and pastor. The amount will be reduced by 20 percent a year until the congregation receives nothing after five years.

We are praying that shortly after the congregation comes into existence they will start tithing and make it possible to start new congregations.

AFLC World Missions desires to start congregations among people in India who have never before been reached with the Gospel.

### Opportunities

Start five congregations	\$11,880.00
Start two congregations	\$4,752.00
Start one congregation	\$2,376.00
